

Mounting Solutions

There are many methods to attach to an enclosure, touch screen or LCD screen to a machine tool.

- (1) Bolt on through bottom with a threaded long bolt and grommet from \$200
- (2) Poll ready types, minus the poll of various lengths from \$250
- (3) Wall mounted with various base sizes from \$99
- (4) Clamp onto bench arms up to 3 inches thick.
- (5) Pivotal, swivel monitor arm from \$99

All of these mount to the enclosures, touch screens or LCD screens we offer using the industry standard VESA mount.

Wall, grommet poll or clamp mounting plate positions
100mm x 100mm VESA
Load capacity: Up to 65 pounds
Adjusts the screen to viewing angle
